Routes to Harbin and Vladivostok.

THE GREAT WAR.

(Continued from First Page.)

garding the internal conditions in China since the Chino-Japanese war. He said China was awakening. The government was making rapid strides along the lines which Japan had developed. China was sending pupils abroad to study, and bringing in foreign instructors. Many of these were Japanese, and a rapprochement between the two countries was steadily being effected. The Manchurians were delighted with the Japanese administration wherever it was in force, because they found no lawlessness and perfect justice.

The Chinese government, M. Takashiki added, proposed reorganizing the army of China and recreating its navy. The Japanese believe that within ten years China will be able to defy Russia.

In this connection a Foreign Office official said to the Associated Press today that he believed Japan would occupy Harbin and also maintain the nucleus of a garrison in Manchuria for a period of years after the war. He added that there was not the slightest doubt that the Japanese would maintain the open door and refrain from all active manipulation of the Manchurian government, as they had decided at the beginning of hostilities.

PEACE PROPOSALS.

MUST COME FROM THE CZAR.
(BY THE ASSOCIATED PRESS-P.M.) PARIS, March 30.—[By Atlantic Cable.] Regarding the statement telegraphed from St. Petersburg that Russia's negative conditions precedent to peace negotiations have been made known to Japan, a personage who is conversant with Japan's attitude in the matter said to the Associated Press today:

"Russia's evident desire for peace is observable to Japan, the same as to the rest of the world, and Japanese statesmen doubtless possess superior facilities to correctly estimate the peace tendencies in responsible Russian quarters. Japan knows that Russia wants peace without indemnity, without humiliation and without rigorous terms. But this does not fulfill the requirements necessary to the initiation of peace negotiations. On the contrary, if Russia wants peace certain definite steps are necessary. It is essential that Emperor Nicholas personally pronounced himself for peace, as Japan is fully aware that he is the sole autocratic power. After that, instead of a vague intimation, it will be essential to adopt the usual formalities."

PLUCKY GIRL SAVES FAMILY.

Ciad in Nightrobe Gladys Bell Runs Three Blocks to Summon Police.

(By DIRECT WIRE TO THE TIMES)

CHICAGO, March 26.—[Exclusive Dispatch.] The pluck and presence of mind displayed by fifteen-year-old Gladys Bell saved her mother and Johnny and Eva Bell, brother and sister, from probable death in the smoke and flames of a fire in the Bell home. Awakened by the roar of the fire in the bakery below her home flat, and almost choked by the dense smoke, the girl ran three blocks to the stockyards police station, clad only in her nightrobe, and barefooted.

"My house is on fire—mama is sick in bed! Save me! Save my brother and sister!" she shouted to Desk Sergeant Michael Delaney.

Hastily giving the truck company a still alarm and rousing the bluescoots, the sergeants sent a patrol-wagon load of policemen to the Bell home, where the occupants were saved by the prompt work of the firemen.

VLADIVOSTOK CUT OFF.

(BY DIRECT WIRE TO THE TIMES)

PARIS, March 30.—[Exclusive Dispatch.] A dispatch from St. Petersburg says the Japanese have cut the railroad between Harbin and Vladivostok. They have sent Russian siege guns which were captured at Port Arthur in the direction of Vladivostok.

GUNSHU PASS EVACUATED.

The Russians, after severe fighting, have evacuated Gunshu Pass, which is twenty miles south of Changchun, the westerly terminus of the railway which branches off the main line between Mukden and Harbin and extends to Kirin, many miles to the eastward. Gunshu Pass is about 130 miles south of Harbin.

of suing for peace. Concerning indemnity, no one is authorized to state the amount which Japan will claim, but it is clear that some very substantial indemnity is necessary as compensation for Russia's causing Japan to engage in a costly war. Concerning other terms, these are varying as the campaign progresses, and the taking of Vladivostok will make further material changes in the conditions on which peace will be possible."

It can be said definitely that France has not acted as an intermediary in informal approaches whereby the governments of St. Petersburg and Tokio were several days ago made aware of the general attitude of each other.

Foreign Minister Delcassé said within the last twenty-four hours that nothing whatever in the way of a tangible peace proposition from either side has come to his knowledge. He is sincerely hopeful that some such proposition will materialize, but considers the present movement entirely too vague and lacking in responsibility to inspire a prospect of success.

ROJESTVENSKY'S MOVEMENTS.

DEPEND ON COAL SUPPLY.
(BY THE ASSOCIATED PRESS-A.M.)

PARIS, March 30.—[By Atlantic Cable.] Admiral Rojestvensky, in the course of an authorized interview with a Marin correspondent at the island of Nosniss, March 4, said the future movements of the squadron depended upon the arrival of coal and military developments.

"The slow arrival of coolers," he said, "becomes a serious question when a fleet consists of sixty warships. If coal is abundant, I may go to meet the Third division."

Admiral Rojestvensky received a telegraphic summary of the decision of the international commission of inquiry into the North Sea incident and said:

"I am glad the admirals approved of my conduct, but owing to doubts concerning the incident; I shall always feel a certain measure of moral responsibility. However, torpedo boats were certainly there, my ships were endangered, I was obliged to save the flagship, and I succeeded."

RESENTERS STOESSEL'S SURRENDER.

(BY THE ASSOCIATED PRESS-F.M.)

PORTLAND (Or.) March 29.—M. Vershinin, civil governor of Port Arthur prior to the surrender of that fortress to the Japanese, passed through Portland today en route from the Orient to Russia, leaving on the night train for San Francisco. M. Vershinin bitterly resents the surrender of Gen. Stossele, which, he believes could have been postponed for two months at least.

GORKY MAY GO SOUTH.

The Emperor, in his decision, has given an answer to the petition of the Finns, which asked that all imperial decrees since the Diet of 1808 be withdrawn.

It is claimed in contravention of the organic law of Finland, to be withdrawn or submitted for the approval of the Diet, and in view of the fact that the Finns intended to submit the imperial decree to the Diet, and in view of millions of people who submitted it to the Diet.

Finland will have to pay a contribution of \$2,000,000 in the same way as the Muscovites of the Caucasus paid.

In this matter the Emperor went beyond the recommendations of the Russian Senate, to which the petition was submitted, and acted on the suggestion of the Ministry of Foreign Affairs, which had submitted the bill to the Diet.

WASHINGTON.
SESSION OF THE CONGRESS.

Vill Probably Reassemble in Month of October.

Members Going to Philippines Will Have Returned.

Intel Commissioners' Resignations—Rates on Corn.

BY THE ASSOCIATED PRESS—A.M.] WASHINGTON, March 30.—[Exclusive Dispatch.] The President's statement made to Senator Burrows of Michigan, today, that he will call Congress together in extra session "about October 15," showed that the President has not changed his mind in the slightest degree about the necessity for railroad-rate legislation. By "about October 15," the President evidently meant October 15, which falls on Monday, so that by the latter part of October, Congress can get at work upon the legislation.

The announcement yesterday that the Interstate Commerce Commission will make an investigation during the summer into the private car-line business, commencing first with private lines carrying fruit from the Michigan fruit belt to eastern markets, is another step in the President's plan to have some sort of government supervision over all freight transportation. The Michigan fruit belt was chosen for taking the first investigation because the case from that state is the most important. The Interstate Commission some time ago had decided against the car-line companies. Some time before, similar moves were decided against similar companies in the fruit belt. Now, however, private car lines are to be looked into in the course of this investigation.

Senator Elkins, chairman of the Senate Committee on Interstate Commerce, has sent a circular to all members of the committee, making reference to railroad-rate legislation. The committee will meet in Senator Elkins's room to continue hearing testimony on the subject. The hearing is given by the Senate before adjournment, April 17, and for some time after that the committee will be in session practically every day, in order to dispose of a large number of witnesses who will take the stand before the committee. Senator Elkins proposes to adopt a method for procuring reliable information that it is thought will produce the most satisfactory results. The proposed method consists of the lawyers of the country, not connected with railroad interests, several questions as to the constitutionality of certain proposed legislation relating to the power of Congress to regulate interstate commerce. For instance, it is a question whether Congress can delegate to the commission as proposed in the House bill power to fix railroad rates. At least, there are two questions of this subject, and it is the earnest desire of Senator Elkins, when he gives his sanction to the bill, to have it so framed that, if it is passed by Congress, it cannot be nullified by the Supreme Court. It is also desired unconstitutional by the Supreme Court of the United States, for it is practically certain that any law that Congress may pass will not be welcome to the courts. The bills will be tested in the courts.

WORK FOR GRUNSKY.
PRESIDENCE TO PLACE HIM IN DIRECT WIRE TO THE TIMES.
WASHINGTON, March 30.—[Exclusive Dispatch.] If the resignation that Carl E. Grunsky of California wrote out yesterday as a member of the Isthmian Canal Commission is accepted by the President, Grunsky will be immediately offered another place under the United States government, where his ability as an engineer will have full play, as it has as a member of the commission. In addition, he will have greater freedom for individual initiative and action.

It is not settled, even in the President's mind, that he will accept Grunsky's resignation. If he does, it is believed that the President thinks he will accept that resignation, he will immediately offer Grunsky another position. It will be a position entirely congenial to Grunsky, and to which he can devote a lifetime of work.

CANAL COMMISSIONERS.
RESIGNATIONS ARE RECEIVED.
BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, March 30.—Secretary Taft today received the resignations of the Panama Canal Commissioners, with the exception of that of Maj.-Gen. Davis, Governor of the canal zone, which, however, is expected to be forthcoming.

Admiral Walker, chairman of the Panama Canal Commission, telegraphed by cable the resignation of Gen. Davis, as a member of the commission, and immediately forwarded it to the Secretary of War.

There are no hints in the government of the reason why the resignations of the present canal commissioners, as their successors are appointed. It is expected that the new commissioners, together with the new communication, instructions, will come within a very short time.

WASHINGTON, March 30.—Mrs. Roosevelt, accompanied by some of her children and relatives, will leave Washington Friday for the South, probably Jacksonville, where they will go aboard the yacht Sybil for a short time.

She is said to be in poor health, and sometime on a cruise, believing it will benefit them. Mrs. Roosevelt contemplates returning to Washington in a few days. While she is away, Miss Alice Roosevelt will be in charge of the White House.

RATES ON CORN.
INTERSTATE COMMERCE INQUIRY.
BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, March 30.—The Interstate Commerce Commission has issued orders instituting an investigation in the matter of rates on corn and corn products from Missouri River points to points in Louisiana, Texas, Washington, Oregon and California. The roads involved are the Santa Fe,

Rock Island, Frisco, Missouri, Kansas and Texas, Missouri Pacific, Kansas City Southern and Burlington, and they are ordered to file a report by April 20, 1905, and to appear in Chicago May 8, 1905.

IRRIGATION COMMITTEE.

COMING TO THE SOUTHWEST.
BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, March 30.—The Irrigation Committee of the House and Senate will leave Kansas City June 1 to visit all the principal irrigation projects of the Southwest and West. They also will visit the Portland Exposition before returning. A number of invited guests will accompany the committee, and the party will be accompanied by an official of the Geological Survey.

SIX MILLION DOLLARS DAMAGES.

STRATTON CASE IN COURT.
BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, March 30.—A petition for a writ of certiorari has been filed in the Supreme Court of the United States in the case of Stratton's Independence Mining Company of England vs. the trustees of the estate of the late W. S. Stratton, the Colorado mining millionaire. The case involves a suit for damages in the sum of \$4,000,000 in the purchase of Stratton's mine in Colorado. In their petition the parties ask that they paid \$10,000 for the property, and this, they assert, was \$4,000,000 more than it was worth. They say that the mine was "salvaged" and say that in one way Stratton made the mine appear far more valuable than it really was. The case was decided by the Circuit Court of Appeals for the Eighth Circuit, favorable to the miners, and the purpose of the petition is to have the case brought to the Supreme Court for revision.

THE PRESIDENT A MASON.

BUT WAITS FOR DEGREES.
BY DIRECT WIRE TO THE TIMES]

WASHINGTON, March 30.—[Exclusive Dispatch.] Both Theodore Roosevelt and Charles W. Fairbanks went to the Masonic order after they had been chosen as the vice-president. President Roosevelt was popularly elected in November, 1904, and before winter was over he had become a member of Matthewcock Lodge, Oyster Bay. He has been elected to the Royal Arch, but has never taken the degrees because of the pressure of public business, and has decided to wait until after his term has expired.

Fairbanks took the symbolic blue lodges, and was granted dispensation from the Grand Master of Indiana, during the recent holiday recess. He has since taken the Chapter degrees, also under dispensation, and in a day or two during the present year, will take the remaining degrees of the York Rite, ending with that of Knight Templar, and then take the Scottish Rite up to and including the thirty-second.

CRUISER BROOKLYN TO MAYTHI.

TROUBLE IMPENDING THERE.
BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, March 30.—The cruiser Brooklyn, due at Guantanamo today, will be ordered upon her arrival there to proceed to Port-au-Prince, Maythi, in response to the request of the State Department, after receiving a cablegram from Minister Powell, saying that trouble was impending there.

The sailing of the Newark from Guantanamo, Maythi, under previous orders prevented the departure of the warship, and will swear over and drive the Russians from Siberia.

Pastoral Address of Metropolitan of St. Petersburg Calculated to Incite Ignorant Peasants to a War of Extermination.

[BY THE ASSOCIATED PRESS—A.M.]

S. PETERSBURG, March 30.—[By Atlantic Cable] In view of the peasant agitation throughout the country, some of the newspapers are seriously alarmed at the effect of the recent pastoral address of the Metropolitan of St. Petersburg, M. Antonius, as being a direct incitement to the ignorant peasants to begin a war of extermination against the entire educated class and the nobility.

Prince Mestchedsky, editor of the Grushdman, denounces the sermon as the most dangerous utterance of the century, and places it in the same category as the "Imperial Decree produced upon the ignorant, religious-minded peasants of a damnation from the altar of the 'intellectual' as being the roes of Russia." "Bloody wolves, and followers of the anti-Christ, who are the enemies of the German temples, place sacred bones in anatomical museums and wear the people from their chance of entering the kingdom of heaven."

M. Omeretovsky, the famous Russian author, declares that to call on the faithful to fight with the cross to the last drop of their blood for the salvation of Russia as the home of Christ, and to cut off the rotten branch, is untrue. The administrative building at Yalta, belonging to the imperial family, was burned during the recent disorders.

BRITISH SURPRISED.

[BY THE ASSOCIATED PRESS—A.M.]

LONDON, March 30.—[By Atlantic Cable] The speech of Chancellor von Bismarck to the Reichstag yesterday was received with mixed feelings. The British press, rather than to emphasize the diminution of the Russian alliance and thereby the probability of a rapprochement with Germany, At the same time, these least inclined to civilize the German Empire, seem to believe that it is calculated to stiffen the British resistance.

French policy in Morocco is regarded as the civilian scheme involved in the Anglo-French agreement.

In this light, the usually moderate British press says the Emperor's visit to Tangier is for the purpose of confirming an unfriendly act. Other papers are inclined to doubt the wisdom of the Emperor's policy, which they think more likely to result in a strengthening of the Russian alliance and a rapid rapprochement with Germany.

Much satisfaction, however, is expressed at the exchange of visits which is being arranged for the British and French fleets during the month of April. The initiative in this demonstration of friendly relations will be taken by the British government, and in Paris it seemed to be agreed that the visit of the British fleet to Brest or Cherbourg would be the second visit of King Edward, or some other of the royal family to Paris. Nothing, however, has been definitely arranged in this latter direction.

The British press, rather than to emphasize the diminution of the Russian alliance and thereby the probability of a rapprochement with Germany, At the same time, these least inclined to civilize the German Empire, seem to believe that it is calculated to stiffen the British resistance.

The German press, however, seems to be of the opinion that the Emperor's visit to Tangier is without any political significance.

When the British government had declared, in 1884, that the alliance between France and Germany was to be maintained, the agreement between itself and Britain, signed six months later, whereby France was given a mandate to regulate the affairs of Morocco. Reference was made to the British government's interest in the development of the country and as a consequence of that interest, the British government had had to do difficult and unnecessary work in Turkey, China and elsewhere.

When the British government had been tried, it was the power along the coast which gave pre-eminence to the Sultan of Morocco. France, on the other hand, concentrated its efforts on the interior, particularly in the south, where the Sultan's power was greatest.

As the power of the Sultan increased, so did the British government's interest in the interior, particularly in the south, where the Sultan's power was greatest.

KAISER GETS UP A FLURRY.

Preparations Complete for His Reception.

London Irritated Because of Possible Politics.

Paris is Still Calm Though Promising Diplomacy.

BY THE ASSOCIATED PRESS-P.M.
KAISER (Morocco) March 30.—(By Atlantic Cable.) Preparations are complete for the reception here of Emperor William. The pier has been cleaned and decorated, and numerous flags have been erected in the streets along the route of the procession. The French and German flags are displayed everywhere. The natives are very enthusiastic over the welcome to be given the German Emperor.

Emperor William will land at 8 a.m., and will be received at the mole by Abd-el-Makib, a Moorish deputation, representatives of the diplomatic corps members of the German colony.

His Majesty will then proceed to the house which has been placed at his disposal by the Sultan. After a few hours he will drive to the Spanish Plateau, where tea in the British fashion will be served in a tent sent by the Sultan, and Abd-el-Makib will read a letter from the Sultan during the Empress's formal visit.

The ceremony will be followed by a military fanfare and march past by the garrison of Tangier.

At the conclusion of this portion of the reception, the Emperor will return to the German legation, there to receive members of the diplomatic corps and the German colony. From the windows of the legation, he will witness a grand pageant by delegations of the tribes of Tangier.

His Majesty will embark, and continue his voyage to Gibraltar.

The city is full of visitors tonight, and presents a picturesque appearance, many arriving from here, and Berbers coming to negotiate with tribes are among in large numbers.

LONDON IS IRRITATED.
KAISER'S TRIP POLITICAL.
(BY THE ASSOCIATED PRESS-P.M.)

LONDON, March 31.—(By Atlantic Cable.) The editorial articles and dispatches printed in the London newspapers this morning reflect to a certain extent the uneasiness, almost amounting to irritation, at the idea, based on Chancellor Bismarck's speech in the Reichstag March 28, that Emperor William's visit to Tangier has definitely political motives. The subject was also much commented upon in the lobbies of the houses of Parliament yesterday.

"Russia's clique in Germany's opportunity," crystallizes in a sentence the general idea prevalent on the subject. It is assumed that the Emperor, who has been desirous to irritate France, wishes rather to emphasize the diminished value of the Russian alliance and thereby persuade France of the advisability of re-aligning with Germany.

At the same time, those who wished to cajole at the German Emperor's action admit that it is calculated to stiffen the resistance of France in Morocco and so render the civil war more involved in the Anglo-French agreement.

In this light, the usually moderate Daily Telegraph says the Emperor's visit to Tangier can only be regarded as a "bold stroke" and "a bold step" intended to drown the winds of Emperor William's policy, which is more likely to result in strengthening the Anglo-French alliance.

Much satisfaction, therefore, is expressed at the arrangements of visits which are being arranged for the French and British fleets during the coming summer. The initiative in this demonstration of friendship is said to have been taken by the British government, and it is believed to be hoped that the visit of the British squadron to Brest or Cherbourg would be the occasion also of a visit by King Edward, or some other of the royal family to Tangier. Nothing, however, has been definitely arranged in this latter direction.

BRITISH SURPRISED.
(BY THE ASSOCIATED PRESS-P.M.)

LONDON, March 30.—The Associated Press learned at the Foreign Office to-day that Chancellor von Bismarck's statement in the Reichstag yesterday of Germany's policy toward Morocco came as a complete surprise to the British government. It is believed, as had been generally declared, that Emperor William's visit to Tangier was without political significance.

When the Anglo-French entente was concluded, in 1894, France officially informed Germany of the fact and also of the agreement between herself and Spain, and when the French later, through France were imperatively necessary for the good of all the powers commercially interested in the country and as a concert of the powers had passed so difficult and unworkable in France, China, and elsewhere where it had been tried, the British opinion of the British government that France alone could bear such a responsibility for the conduct of Morocco, France, politically and commercially, was given the mandate to institute reforms, and equal commercial rights insured to all the countries concerned.

Great interest attaches to the expected arrival at Tangier of Raisul, the brigand chief, who captured Ion Perdigão and Cromwell Yule, and who still continues to command a force.

KAISER LEAVES LISBON.

LISBON, March 30.—(By Atlantic Cable.) Chancellor von Bismarck's speech in the Reichstag yesterday on the subject of Morocco has not provoked any reaction here. The officials, press and public discuss the matter calmly, as there is no interest in either branch of Parliament today, a general statement in the Times says.

Germany makes known her policy, as she does the usual diplomatic formula, it will be seen in a matter of time.

Damaged Under Muslins
At About Half Price

In every well regulated factory the system of inspecting the product is very rigid; anything that is short of absolute perfection is discarded and thrown aside—sometimes it is a fault in the sewing or sometimes it is an imperfection in the trimming or a snag or unevenness in the material; anything that marks it as an imperfect garment causes its rejection. We take each year the product of the foremost factory making muslin underwear and fanciest goods, every garment that is rejected is termed a "second," or in any way marked. The value of these goods is an occasion of considerable value-giving. A little needlework will fit any one of the garments right and make them perfect. WORK OF FIREBUG?

Mattress Factory on Central Avenue
Burned—Police Suspect
Incendiarism.Either a firebug started at Thir-
seventh street and Central avenue last
night, or spontaneous combustion was
responsible for a quick-spreading
blaze that caused a property loss of
nearly \$4000, in a few minutes.At 10:15 o'clock fire was discovered
in the mattress factory of the Ex-
clusive Manufacturing Land and Water
Company, an alarm was immedi-
ately sent in. Engine Company No. 14
at Thirty-fourth street and Central
avenue, only four blocks distant, re-
sponded in less than two minutes, but
the firemen found the two-story frame
building occupied by the mattress fac-
tory was already a total wreck. A quick, hard
fight on the part of the firemen
prevented damage to other property.
The building sustained a loss of \$1800. The
loss to the mattress concern will ap-
proximate \$2000.Firemen and policemen tried to as-
certain the cause of the fire last night,

the introducer of the Morris Canal
Bill, rose to a question of personal
privilege. He stated that the charge
of bribery should be noticed. He moved
that the house go into committee
of the whole, and that the sergeant-at-
arms be directed to bring before
the bar of the House Joseph L. Naar,
the editor of the newspaper which
published the charges.Later, the sergeant-at-arms brought
in Mr. Naar. Mr. Naar testified that
he knew nothing of the article until
after its publication. H. A. Conover,
the French ambassador to the newspaper,
was the author. Conover admitted
writing an article which stated that
it was common rumor that certain
members had received \$300 each with
a promise of good money. Pressed as
to the name of his informant, he refused
to answer. Subsequently the law
was read to him which made it a
misdemeanor to fail to answer unless
he should claim that an answer would
expose him to criminal liability. He
said he made no such claims and finally
gave the name of Fred Ege of the
Hoboken Observer, as the reporter
who had given him the information.The article, it was said, was written by
the State and the bill providing for its
abandonment in order, it is said, that
certain railway interests may control the
property, has been pending for several
weeks.

NEW YORK LIGHTING.

Legislative Investigation of Gotham
True Begun—Many Witnesses in
Attendance.

(BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, March 30.—The investi-
gation of the alleged monopoly of New
York's supply of light, and of charges
of the extraction of extortionate prices
by a combination of lighting companies,
was begun before a committee of the
Legislature today. Mayor McClellan,
City Comptroller Grout and other city
officials having anything to do with the
awarding of city lighting contracts,
as well as more than 100 officials of the
lighting companies are expected to be
witnesses before the committee, of which
State Senator Stevens is chair-Counsel representing the Consolidated
Gas Company, in which several smaller
lighting companies were merged, has
announced that the company will not
resist efforts of the committee to ex-
amine the company's books and as-
signments to the cost of production of the
light sold to the city.Bills for lighting the city for a portion
of 1903, and amounting to nearly
\$5,000,000, are still awaiting payment,
a movement which was suspended from
the committee's consideration. The
committee declared they were about \$2,000,000 too
high. Suit has been brought to com-
pel the city officials to continue to re-
fuse to pay the bills, and the city govern-
ment has taken steps to build a
municipal lighting plant.CHICAGO, March 30.—Conspiracy in-
dictments are threatened against
the heads of the big meat-packing
concerns, unless alleged tampering
with witnesses who have been sum-
moned to testify before the Federal
grand jury.With two witnesses on the stand to-
day, who, it is asserted, admitted that
they had been approached with a sug-
gestion that their testimony be mild,
the jury, it is declared, is getting ready
to take drastic action."We will shut off interference with
witnesses," said Assistant Attorney-
General Paglin tonight, "even if we
have to resort to proceedings under
the conspiracy statute to do so."Belief was general tonight that Mr.
Foster was safe.SNOW AND FROST

damage will be done, and the promise

The Supreme Court today issued an
absolute rule of prohibition against
Circuit Judge Foster of St. Louis, pro-
hibiting him from trying Edward But-

charging Butler with bribing Charles
F. Kelley, former speaker of the St.

State and go to trial against him in a
higher court in another State. The Supreme
Court held that the act alleged was
a misdemeanor, and not a felony, and
for that reason the case is ordered

**KONG CABLES
TO FIND OUT.****"Chinese Imperial Reform Army" Too Puzzling.****"Gen." Falkenberg Appoints Hotchkiss Brigadier.****Ten Million Dollars for the Great Movement?**

This is getting to be a dreadful affair about "Gen." Falkenberg, the commander-in-chief of the Chinese imperial reform army. It was announced yesterday that Capt. A. E. Hotchkiss has been taken to his bed sick as a result of the unkind accusations cast upon him by the triumphant general to the rampant leader of this army.

"Gen." Falkenberg received these insults by telephone, replied tauntingly through his private secretary. He said that the reports were lies, and he would yet burst forth triumphant over all his competitors.

CABLES TO FIND OUT.

So agitated did the cables of the Chinese military company become that they came in a body upon His Excellency Kong Yu Wei begging for the truth.

Mr. Kong received them graciously and talked with their leader, Capt. Chang.

He offered to send a cable to Leong Kai Chew, the Chinese reform celebrity through whom Falkenberg claims to be in touch with the Chinese government over Lieut.-Gen. Parmentier, a Los Angeles architect and the Chinese imperial reform army.

The man Falkenberg depended upon the answer, which has not yet been received.

Mr. Kong expressed his polite inability to credit the idea that Falkenberg had been appointed commander-in-chief of the reform army. He stated that Capt. Chang had asked permission to lend him \$10,000 for the use of the reform movement.

They were somewhat staggered by this offer. During the course of the evening Capt. Chang told his Excellency a statement regarding the after-dinner speech he was reported to have made at the Hotchkiss' banquet, of which Capt. Chang was made to writing by "Brig.-Gen." Hotchkiss of the Chinese imperial reform army.

STAGGERING OFFER.

His Excellency told Capt. Chang that he made no references to the army in the whole evening—didn't green Falkenberg as commander-in-chief. He stated, however, that Falkenberg had asked permission to lend him \$10,000 for the use of the reform movement.

Nothing daunted by this Falkenberg was recently from the command of the Chinese military company of San Francisco. Chung says that one night the Chinese secretary of His Excellency, Capt. Falkenberg—was president of the Standing Order Committee—had dividends would come due about September. Capt. Chung says Capt. Yen Kuo Soon related this in turn to him.

NO SUCH ARMY, THEY INSIST.

The Chinese of this city are firm in the statement that there is no such thing as an "Imperial reform army" other than the cadet companies scattered through the States of which Gen. Lee is admittably by Falkenberg to be commander.

The secretary of Mr. Kong says the same thing.

Capt. Chung says that Falkenberg wrote down here not long ago begging to be allowed to move on the ground that he had been born in America, in the United States government, but got no money.

Capt. O'Brian of the local military commandant said he had seen an order issued by Gen. Falkenberg in which he incloses some sort of a coupon to all the generals and colonels and things he has appointed, asking them to give him less than \$1,000 as much more as they choose to send, the money to be used to buy a medal for His Excellency, Kong Yu Wei, thus abroad.

However, almost all heroes have gone through vicissitudes. The day before, almost any day, when "Gen." Falkenberg may gather the faithful army of the reform, consisting of Brig.-Gen. Parmentier and Brig.-Gen. A. E. Hotchkiss, and be positively rude to the usurping Dowager Empress.

CHICAGO WANTS REVENGE.

CHICAGO, March 30.—Exclusive Dispatch. Enclosed by the success of the Chicago Athletic Association team in the Charity Carnival Tuesday night, and still smarting from the defeat sustained in the Olympic games at St. Louis last summer, Everett C Brown, chairman of the Athletic Committee, announced today that his committee would at once set about to arrange a dual meet between his victorious team and the New York Athletic Club.

"Ever since the Chicago Athletic team was defeated by the New York Athletic Club last summer, Everett C. Brown, the Athletic Committee at the club has been anxious to have another chance at the easterners. The New York team has the decision on the margin of one contested point, and we have always believed that we could beat them."

LAWN TENNIS.

The midweek tournament of the Southern California Lawn Tennis Club will come to an end at Santa Monica tomorrow afternoon with the playing of the mixed doubles that were to have been played at the Central courts at South Pasadena last Saturday, but had to be postponed.

The three teams that are to play tomorrow are Florence Sutton and Hal Gowan, May Sutton and A. C. Way and Walter Sutton and Simpson Simpson.

A Good Deal of Nonsense**About "Blood Purifiers" and "Tonics"**

Every drop of blood, every bone, nerve and tissue in the body can be renewed in but one way, and that is from wholesome food properly digested. There is no other way, and the idea that a medicine in itself can purify the blood or supply new tissues and strong nerves is ridiculous and on a par with the folly of those dyspepsia or indigestion is a germ disease, or that other fallacy, that a weak stomach which refuses to digest food can be made so by irritating and inflaming the bowels by pills and cathartics.

Stuart's Dyspepsia Tablets cure indigestion, sour stomach, gas and bloating after meals, because they furnish the digestive principles which weak stomachs lack, and, unless the deficiency of papain and diastase is supplied, it is useless to attempt to cure stomach trouble by the use of "tonics," "pills" and "cathartics" which have absolutely no digestive power, and their only effect is to give a temporary stimulation.

One grain of the active principle in Stuart's Dyspepsia Tablets will digest your grains of meat, eggs and similar foods, and medical experiments have shown that they will do this in a glass bottle at proper temperature, but of course are much more effective in the stomach.

There is probably no remedy so universally used as Stuart's Tablets, because it is not only the sick and alliling, but well people who use them at every meal to insure perfect digestion and assimilation of food.

People who enjoy fair health take Stuart's Tablets as regularly as they take their meals, because they want to keep well; prevention is better than cure, and Stuart's Dyspepsia Tablets do both; they prevent indigestion and they remove it where it exists.

The regular use of one or two of them after meals will demonstrate their merit and efficiency better than any other argument.

HEAVENS IN APRIL.

VENUS WILL BECOME VISIBLE IN FULL DAYLIGHT—THE SPRING CONSTELLATIONS—THE NEW COMET.

By Prof. Eric Doolittle,

[ASTRONOMER OF UNIVERSITY OF PENNSYLVANIA.]

The beautiful evening star, Jupiter and Venus, which for three months have shone out brightly in the west, will disappear from our sight during April to reappear later in the early evening until next autumn. Venus leaves it finally withdraws from the western sky will grow so exceedingly bright that it will be easily visible even in full daylight to one who knows where to look for it. It increases so greatly in brightness because the planet is drawing continually nearer the earth; when it is nearest to us it is almost in a straight line between the earth and sun. It then sets very soon after sunset and through a small telescope is seen to be a very

The constitution and temperature of the whole forming a very fine object for a small telescope.

The very bright star at A is Arcturus, a brilliant reddish star, but one which has always been an evil omen among the astrologers, since diseases were believed to be especially apt to prove critical if they begin soon after its rising. If a line is supposed to draw joining the last two stars of the handle of the Great Dipper and then extended toward the east it will pass very near this star. In the same way the North Star can readily be located for it lies almost in the straight line joining the first two stars of the bowl of the dipper.

narrow, brilliant little crescent like the moon when three or four days old. This appearance is now seen after April 20th.

Meanwhile, as some compensation for the loss of these two beautiful worlds, a new object is beginning to climb up in the sky toward the east. This is the ruddy planet, Mars, which for months has been rising a little earlier each night. On April 1 it rises about 10 o'clock, and is not well up in the sky before midnight, but by the end of the month it will rise before 8, and be well situated for observation by 10. This planet and the earth are rushing so rapidly toward each other that their distance apart is diminished from 75,000,000 to only 51,000,000 of miles during the four weeks' period. As we draw near to the planet it grows very much brighter so that by the end of the month it will be by far the most conspicuous object in the southernmost heavens. Yet it will be even far more brilliant in May, and

this star are very like those of our own sun. It is so enormously far away that a ray of light, though it moves more than 186,300 miles in a single second, requires more than three hundred years to make the journey from the star to us; the light with which we now view this body therefore must have left the star more than three hundred years ago. Arcturus is approaching us at the rate of four miles in each second.

To the east of Bootes there is a delicate little group of faint stars which form one of the most beautiful figures of the entire sky. This is Corona Borealis, the Northern Crown. The small rectangle T. N. is therefore enlarged in Fig. 2 and the paths of the planets during the month are marked on it. The Pleiades at P, and the stars T, R and S are the same in both figures; if the observer will look in the west for those stars soon after sunset he will have no trouble in finding all of the stars of Fig. 2, since only the brightest are marked.

The observer should not fail to look for the planet Mercury, the little body which so few people have ever seen. He will best find it by noticing its position with reference to Jupiter and Venus and this he can readily do from the map. On April 4 Mercury will set one and one-half hours after sunset.

SCIENCE HALL BURNED.

NEWARK (O.) March 26.—Barney Science Hall at Denison University at Granville was burned by fire today. Loss was \$2,000. The building, which in the hall were costly, and included the most delicate measuring instruments known to science.

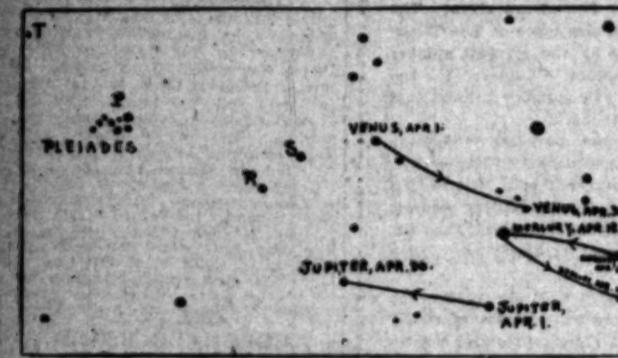

Fig. 2. A part of Fig. 1 enlarged, showing the motions of Mercury, Venus and Jupiter.

This will be the best month of the year for observing it.

THE SPRING CONSTELLATIONS.

Except for Mars, the bright red star in the southeast, the southern sky is now far less brilliant than it has been during the winter. The slow onward march of the constellations has carried the beautiful winter groups Taurus, Orion and Perseus low down in the west, while in the place of these, the fainter constellations Bootes, Serpens and Hercules are appearing in the east. The constellation is hardly a fair representation of the summer groups which have a beauty of their own and contain as many interesting objects for observation with a small telescope as the winter groups do. To study them with any satisfaction, however, the observer must select a moonless night and he must not be too near the bright lights of a town or city.

The most important of the new constellations is Bootes, the Hunter, a group so large that it stretches all the way from the handle of the Great Dipper almost to the celestial equator. This constellation has a distant resemblance to a man with upraised arm, who is driving the Great Bear before him. To the west of Bootes, just below the handle of the Great Dipper, will be found a group of small stars called the Hunting Dogs, and these stars form one great constellation called the Hunter with two Dogs. This group is referred to by Carlyle in his "Remains":

"Bootes, as he leads his hunting dogs over the zenith in their leath of sidereal fire."

As the hours of the night go on the Hunter follows the Great Bear across the sky. When he reaches the western horizon and begins to set, so large is the constellation that his head does not sink below the ground until eight hours after his feet have disappeared. For this reason Bootes is described as sluggish:

"He, when tired of the day, At even lingers more than half the night."

The little group of stars at M. Fig. 1, is seen with a small telescope to be made up of three principal stars surrounded by numerous fainter ones. The upper one of the three is a beautiful double and the lower a triple star,

BY DIRECT WIRE TO THE TIMES.
NEW YORK, March 26.—[Exclusive Dispatch.] From all indications, the benefit to be given to Mrs. Modjeska, May 2 will be the most successful affair of its kind ever known in this or any other country. The benefit will last most of the day. Paderevski and Semenich, both Foles, like Modjeska, and befriended by her in the days of their early trials, have taken hold with a will, and backed by Daniel Frohman and every other big manager in New York, are determined to replenish Modjeska's coffers with thousands.

WHAT CASTRO FORESAW.

CARACAS, Thursday, March 26.—[Exclusive Dispatch.] President Castro today said: "I have seen from the first that no danger was likely to arise out of affairs which have undoubtedly occupied public attention. Aside from other reasons, Venezuela places complete confidence in President Roosevelt. Venezuela's government asks no more than Mr. Roosevelt proclaims."

We hold that the French cable

case and the Bermudas case are identical. Neither company has fulfilled its contracts. Both favor the revolutionists here. Their cases were not submitted to the mixed commission, because they knew it was Venezuela which should have made the claims, instead of themselves.

Their disposition then was to ignore Venezuela's rights. The cable company is fully aware that they are in favor of the revolutionists.

The original documents and proofs are in the possession of the revolutionists, and the company dropped dead of heart disease today at his home in this city, aged 81 years.

Los Angeles Daily Times.

HEAVY SLUMP IN PRODUCTION.**PALING OFF IN KERN RIVER FIELD CONFIRMED.**

Limits of Output of State's Largest Field Reached Last Year, and Things Not What They Should be, According to Private Reports from Bakersfield.

From Bakersfield comes the report of a heavy slump in the production at Kern River which bears out fully what the Times published some months since, that the State's largest field reached its limit of production last year and is now falling off, a statement which has been confirmed by the men of the Petroleum Development property, acknowledged by its owner, the Santa Fe Company which is now prospecting for a second sand in the hope of retrieving the loss occasioned by waste.

The slump was foretold, more than two years ago in a public meeting of the producers of Kern River, who declared that unless the waste problem was solved the water problem would be fully acknowledged by operators who told of what they had already experienced on their own lands. Those who then discussed the matter admitted the possibility admitting the condition were John M. Wright, president of the Persian, and M. L. Thorn, then superintendent of that company, Timothy Spillery, and a number of others of the best known operators.

The really vigorous and positive action by persons in authority have been chiefly by representatives of the Associated Oil Company who have given their opinion that they were not to trouble and that their output was increasing rather than diminishing.

In the other hand reliable men in the oil business say that employees of the companies in a position to know whereof for speak again and again acknowledged in private that things are not what they should be and that production is decreasing.

Besides this there are those who say positively that water is being pumped in large quantities from wells of the combine as well.

The Bakersfield correspondent of The Times writes that reliable information is to the effect that the combine is not getting over 15,000 barrels a day from its own property and the independent Agency, while the four companies under contract to the Standard are getting over 20,000.

These figures indicate that the estimate of the Associated is about 10 per cent. of Kern River's output, which was based upon the territory not number wells covered, an overstatement. Thus far no reports of sales have been delivered by the independent Agency which is about one-half what it was expected would be delivered when the combine was formed. The independent companies have been buying from McKittrick, above the Los Angeles line, from Chaffee and Rose from Los Angeles and is drawing on the Standard's Kern River contract heavily.

While the reports indicate that 10,000 will without doubt fall off in Kern River's output there is a great improvement, the increase at Chaffee where about half the product is gone and the independent Midway and western lines of the combine should make up much of the loss. The independents at Bakersfield look for better prices next year.

The Standard is reported to have sent out its first pumping station east of Kern River on the big pipe line.

No reason is assigned for this action following the installation of new stations and the announcement that all oil will be taken westward.

Every day evidence is coming to light that seems to point to a virtual abandonment of Kern River by the Standard and its retirement from the business of dealing in heavy fuel oil.

NEWS FROM THE MIDWAY.

News from Bakersfield is to the effect that the Santa Fe is acquiring and will for 1904, right of way for an extension in the Midway district.

DEATH OF MRS. WHALEN.

Long Beach Woman With Wide Circle of Friends Dies in Los Angeles Hospital.

Many friends at Long Beach and in Los Angeles have been saddened by the sudden death of Mrs. Mattie F. Whalen, which occurred in a Los Angeles hospital after an illness of six weeks. The funeral services were held at the home of a friend on Wall street, and the interment was in Rosedale Cemetery.

Mrs. Whalen was the daughter of Mr. and Mrs. J. H. Fairbanks of No. 112 West Third street, Long Beach. She was born November 8, 1872, in Oconto, Wis., and was married in that city to Mr. Whalen in 1898. She leaves a daughter, M. F. Whalen, her brother, two sons, brothers, and one sister.

Mrs. Whalen had endeared herself to a large circle of friends, and her long illness only served to emphasize her beautiful spirit and lovely traits of character. Her health had been failing, and she managed to live, as it seemed so much depended on her in the care of her only child and the comfort of her aged parents; but this time was destined.

KING EDWARD'S TRIP.

LONDON, March 26.—King Edward has decided not to go direct to Copenhagen, as previously planned, to be present at the celebration of King Christian's birthday, April 8, when he leaves Copenhagen April 6 to go to Marseilles. "When the kidneys are sick there is always a warning to tell you of it, and when the kidneys call for help there is no time to lose. Kidney diseases are common and fatal, and the kidney disease never goes out of vogue. But to save cases out of vogue it is to neglect. Kidney disorders are easily contracted, just as easily cured when treated properly and timely.

Common causes of kidney trouble are stones, fevers, exposure, strains on the back, blood poisoning, diseases, and indulgence in tobacco.

The kidneys are the blood filters, and when they become sick, the blood is soon forced to re-circulate, which kidneys, like heart, lungs, and other muscles, acting as pumps of circulation, headaches, rheumatic pains, sleeplessness, nervousness, and giddiness and fits.

Meanwhile, the kidneys are fast breaking down, and from this cause the urine becomes darker and full of sandy sediment; passage are too frequent and often painful.

Urinary calculi and stones gravely affect the urinary system. The kidney cannot perform its natural duties. Water which passes off in the urine collects in different parts of the body, causing dropsical bladders and kidneys.

For more than two years I have had much trouble from my kidneys whenever I have done any work about the house, with rheumatism, etc. My kidneys ached dreadfully, and I was sick all the time. I tried Doan's Kidney Pills, and found them to be excellent. I have used two boxes and consider myself entirely cured. I shall always recommend Doan's Kidney Pills to those suffering from kidney complaint."

The End of the Grip

Reached After Eight Years of Com-
plicated Troubles.

Dearness, Headache, Sounds in Head, Stom-
ach Disorder, Palpitation of Heart, and Doubtless Overcome at Last.

Mr. Newman certainly had a very tough time with the grip, and it is no wonder now that he is over it, that he thinks that that remedy that cured him can't be beat. His case shows how profoundly grip poisons the system and how difficult it is to make all ordinary efforts to eradicate it. The publication of the following interview with Mr. Newman will shorten the sufferings of others, as it will save them doubtful experiments and guide them at once to treatment that proved a wonderful success.

Few cases can be worse than Mr. Newman's for he had head, heart and stomach trouble combined with great weakness. Speaking of his long illness, he recently said:

"The attack of grip which I had eight years ago left me in a very bad fix. I became nearly deaf and my head ached continually and was filled with hissing and roaring sounds that were fearfully annoying. My heart fluttered and had regular running away spells. My stomach was so sore that I could hardly bear a touch on that part of my body. I had a great deal of pain in the region of my liver and the doctor said that organ was tired. My kidneys gave me trouble. When I attempted to get up after sitting a while, they ached so that I could hardly stand."

"Didn't you give up and go to bed?" he was asked.

"No, I simply wouldn't. My head and my back ached dreadfully; but hard as it was to stand it, I wouldn't give up entirely. I obstinately dragged myself about, kept growing worse and finally ran down to almost nothing."

"What did you do to get relief?"

"First I tried a doctor, but he did me no good. Then I took all kinds of advertised preparations but nothing proved helpful until I began to use Dr. Williams' Pink Pills. As soon as I got them I knew that I had at last hit the right remedy for me case. The very first box did more for me than anything else I had ever taken. I wish I had heard of them long before for they would have saved me money and suffering. They proved to be just what they claim to be. They gave me relief right away and in three months they positively cured me. I think I was scarcely ever in better health in my life than I am at present, and I feel that I cannot say too much in favor of Dr. Williams' Pink Pills."

Mr. William A. Newman is a well-known Camden county farmer, living at Safraida, Mo. His case was a severe test for any remedy, but Dr. Williams' Pink Pills proved to require no special dieting directly on the blood and making that pure and rich in every element that is essential to perfect health. Other remedies merely drive the poison of the grip into hiding, but Dr. Williams' Pink Pills drive it out of the system. They are sold by every druggist.

SUBWAY DISASTER.

One Fireman Killed and Several In-
jured by a Cave-in—Fire Still
Burning.

BY THE ASSOCIATED PRESS—A.M.J.

NEW YORK, March 30.—Yankee Sargeant Little was killed and several other firemen were injured by a cave-in on the eighth floor at the One Hundred and Sixty-eighth-street station, which was burned yesterday. Little and four others had been sent into the tunnel to set fire to the platform when a section of the roof fell upon them, crushing Little. The others were only slightly hurt.

The fire in the subway was still burning today, but was under control. An extension into the tunnel was hundred feet from the One Hundred and Sixty-eighth-street station. All night the timbers supporting the ceiling gave way and there were heavy falls of masonry at intervals.

The others were only slightly hurt.

The fire in the subway was still burn-

ing today, but was under control.

U.S.C. Year Book.

The Year Book of the University of Southern California was issued yesterday containing information concerning the work of the Mathematical university for the school year, which will open in September. The catalogue contains 148 pages and is well bound and valuable as a record of books concerning the past and present status of the school. It outlines the different courses in both college and academy, and offers new inducements in the way of scholarships.

The Past Forgotten.

Through the kindly efforts of mutual friends, Charles F. and Martha, his wife have become reconciled. The proceedings for divorce which were instituted some time ago have been dissolved and the young couple are now living together as husband and wife. They have decided to begin married

life over again, the understanding being that no reference is to be made by either of them to the differences and misunderstandings which caused their temporary estrangement.

Will Help the Country.

With a view to increasing its field from a national to a local basis, extending it so that it will embrace the entire Pacific Coast, the Pacific Monthly, published in Portland, has opened permanent offices in Los Angeles. The Southern California business of the magazine will be conducted by T. O. Popper, whose headquarters are in the Hellman Building. The publishers of the magazine have decided to make it what its name indicates, a publication covering the entire Coast and not confined to any one section of the Coast. Southern California will receive the attention from this publication that the importance of the section merits.

PERSONAL.

William Pickel, St. Louis contractor, whose work is fixed in a number of Los Angeles office buildings, is at the Angelus.

W. A. Hopkins, mining expert of Brookline, Mass., who owns a number of leading properties in Southern California, is staying at the Van Nys.

Wilbur S. Tupper, vice-president of the Comparative Life Insurance Company, left last evening for a extended trip through the East. Mr. Tupper will visit a number of points of interest.

An interesting guest at the Angelus is William A. Pinkerton, one of the heads of the famous detective house. Pinkerton established an agency here on his first trip, and now, as head of the western department, is making his inspections.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

The Committee on Legislation yesterday made a majority report to the Council recommending that the Mayor's message affecting the use of streets by railway companies be returned to him with the recommendation that he enforce the charter regulation.

Three truck loads were lined up in James Wark's court yesterday waiting and spectators in the suit of John O'Toole against Mr. and Mrs. Sheehan to recover the value of a race.

The wife of former Chief of Police Elton began suit for maintenance yesterday, alleging that in six months he contributed only \$40 to the support of herself and six children.

In the Police Court a "doctor" charged with practicing without legal license will make a fight.

COMMITTEE ADVISES MAYOR TO ENFORCE REGULATIONS.

Will Not Legislate Against the Trolley Railways Awestruck of the Streets—Minority Report Recommends Passage of New Ordinances. Additional Clerk Salaries.

Councilman Smith is of the opinion that the Mayor's universal-transfer message is only a request that the Council carry a portion of his official load.

At the meeting of the Committee on Legislation yesterday morning Mayor Smith told his conference that, in his opinion, there is no necessity for additional laws regulating the use of the streets by the railroads.

"If the Mayor is sincere in his declaration for a business administration," said Mr. Smith, "he must realize that what the city needs is less lawmaking and more law enforcing. The right of the city to the paramount use and control of its streets is set forth in the charter. That right has never been disputed. If the street-railway companies have been guilty of infringement it is for the executive branch of the government to enforce the laws."

Councilman Healey agreed with Smith that action and not legislation is the best way to get the city moving just now. He said that if the Mayor attempted to enforce the existing law and found that they did not provide a remedy for the bill nominated in his message, it would then be enough for the Council to enact additional legislation.

Smith moved that the committee recommend to the Council that the Mayors' message relating to the use of streets by the railway companies for carrying freight without a permit and the operation and joint use of one line by two or more companies without an interchange of transfers be referred back to the Mayor with the request that he take action.

Chairman Ford demurred. The Mayor had asked the Council to pass two specific ordinances, one affecting the right of the railroads to carry freight, and another forbidding the use of one line by two or more companies. Ford expressed the opinion that if the Mayor and the City Attorney think that the passage of these ordinances will help the city better realize its rights, the Council should show a willingness to assist by passing them.

The result of the discussion will be a majority and a minority report to the Council on Monday. The majority report will be in favor of the recommendations to the Mayor with the recommendation that he enforce existing ordinances; the minority that the Council pass the two new ordinances recommended by the Mayor.

Both Mayor McLean and City Attorney Matthews say that it will be easier to regulate the use of the streets by the railway companies if the ordinances recommended by the Mayor are adopted.

But the Mayor is determined to strike for universal transfers, even though the entire Council be opposed to him.

"I prefer to work in harmony with the Council in the regulation of streetcar traffic," said the Mayor yesterday, "but I shall not permit dilatory tactics on the part of the legislative branch of the government to prevent the assertion of the city of its rights to the use of the streets."

"Every member of the Council knows that the railways are operating freight cars over lines where the hold is too small to accommodate more than five blocks without the interchange of transfers. If we asked the Council for cooperation, but if the entire burden fell upon my shoulders, I shall carry it alone."

Inspect Outfall.

Most of the members of the Council have visited the tunnel section of the outfall cover this week in company with the City Engineers to determine for themselves the extent of the damage caused by the outfall. Contractors Stansbury & Powell have asked the Council either to send workmen to repair the damage caused by the outfall or to pay to them the cost of making good. The Council has asserted that the tunnel would not have caved had the city furnished brick for completing the work according to contract. They think that the tunnel has been damaged to the tune of \$10,000, but they have expressed a willingness to abide by the decision of an arbitration committee selected by the Council.

Street Superintendent Haney is of the opinion that when the Council and the Civil Service Commission understand the details of his ordinance regulating the number of office deputies and inspectors in his department, they will agree with him that he has not reduced the department expenses.

Mr. Haney has compiled data showing that during the first three months of his term in office he has reduced the expense in repairing the outfall covers by a month. He yesterday explained that he expects to use this money in equipping a force of street laborers for the wholesale district. The objection made by Councilmen and by Civil Service Commissioners is that the increases passed for the street department have actually increased the expense of the office force and at the same time compassed the dismissal of the older deputy without preferring charges as provided by civil-service rules.

Object to increase.

The Supply Committee yesterday declined to recommend to the council two increases in salary for the Main Clerk McLean of \$25 a month each. One increase was recommended by the Police Commission, the other by the Fire Board.

It has been the custom in the past

for the Mayor's clerk to receive \$125 a month regular salary and \$125 a month each from the police and fire departments. The Mayor's committee on this year decided that the amount should be paid the clerk by the city director rather than out of the pension fund. They also concluded that, as McLean is now doing alone the work that under the old administration was performed by a clerk and a stenographer, he should receive extra pay for it.

Earlier in the week Councilman Healey signed a affidavit for Mr. O'Toole against Mr. and Mrs. Sheehan to recover the value of a race.

The wife of former Chief of Police Elton began suit for maintenance yesterday, alleging that in six months he contributed only \$40 to the support of herself and six children.

In the Police Court a "doctor" charged with practicing without legal license will make a fight.

O'TOOLE MADE EASY MONEY.

SUES M. J. SHEEHAN FOR THE VALUE OF A RACE HORSE.

Judgment Given for Half the Amount Claimed—Former Chief of Police Sued for Maintenance—Justice Pierce Greatly Increased by an Affidavit Alleging Bias.

Touts and bangers—about the race track were in evidence in Judge York's court yesterday. There was a fight on to recover \$2000 alleged to have been handed over for the purchase of a horse. Just what became of the money the court was busy all day finding out.

John O'Toole said he had put up the money for the race horse, and M. J. Sheehan was the man who made the purchase, but Mrs. Sheehan was also held to be liable.

It was claimed that O'Toole made a good-sized wad at Tonopah in mining, and then sought relaxation by following the races. He met Sheehan and asked the latter to tout him off to a horse. Sheehan agreed to do so, and contended that he did, and that at the Oakland meeting he won for him \$6000. While these bets were being won and O'Toole thought he was going to make a killing, he heard that he had lost \$1000. He then went to the track and purchased a gelding named H. L. Frank, and the horse was bought. Coming to Los Angeles, Sheehan continued to tout, but lost, and was not paid. O'Toole, who was faring well, ran around asking for justice. Coming down, he demanded that Sheehan give him a bill of sale on the horse to make good the loss of the \$2000. Sheehan was willing to make over the horse to O'Toole, but the woman was not. Mrs. Sheehan testified that she had bought the horse.

O'Toole told an entirely different story. He had given the \$2000 to purchase the services of the horse to make good the loss of the \$2000. Sheehan was willing to make over the horse to O'Toole, but the woman was not. Mrs. Sheehan testified that she had bought the horse.

The red-capped man replied gravely: "Yes," he replied, "if you can get by the conductor and the usher."—[Kansas City Times.]

THE PLAYHOUSES.

FTHE MARK OF GOOD CLOTHES KNOW US FOR BEST VALUES

MASON OPERAHOUSE. The play that Lionel Barrymore and his company gave in such an eminently satisfactory manner at the Mason last night is one of August's most delightful comedies, and its name is "The Other Girl." The plot has more than the usual number of comedy complications, and which of the three or four girls in the play is the "other girl" does not seem quite clear—but that's the point. For all their hopeless tangledness, the situations in this unique and well-written play are extremely probable and almost inevitable.

Being both a Drew and a Barrymore, Lionel Barrymore must perform as an actor, and succeed on—themselves without trying. He takes the part of Mr. Sheldon, otherwise "Kid" Gavin, a poorighter, "Kid" like Barrymore, ranks first in class. The impersonation from make-up to stage business is fine and convincing, without a trace of exaggeration. Mr. Barrymore shows the poise and restraint that are his by a noble birthright and by hard study.

Richard Bennett is Dr. Clifton Bradburn, "Kid" Gavin's pupil in the no-nonsense school of self-defense. Mr. Bennett makes a very winning young high-church clergymen of the Doctor, a man whose principles are as sound as his manner of living. The Doctor is a kindly soul, a capital characterization of a big-hearted, soft-headed, rather stupid young son of an aristocratic New York family. Doris Keane renders the part of Captain Franklin, a girl who doesn't know her own mind, and who is the cause of all the trouble and hubbub in the play.

William Thaxter as Harry Waterman, Mrs. Houghton as Mrs. Waterman, Miss Prince as Estelle Kitteridge, Joseph Whiting as Judge Bass, Francis Byrne as Taylor, the reporter, and Ella Ray as Myrtle Morrison—all these capable actors to their share toward making "The Other Girl" an unusually finished performance.

BURDETTE ON HEN SETTING.

HAPPY BANQUET OF CHURCH FEDERATION.

New Organization Completed Last Night at a Dinner Where the Committee Was Filled and Officers Elected—Good Speeches and Good Music.

"The time to set a hen is when she wants to sit," said Rev. Robert J. Burdette last night. "There was a time a while back when we wanted to hatch a church federation, but the hen wasn't ready to set."

Mr. Burdette was toastmaster at the first fellowship banquet of the Laymen's Committee of the Los Angeles Church Federation, which came into life by the natural process of evolution from the committees of the recent evangelistic campaign.

The banquet was held in the rooms of the First Methodist Church. Association was a most delightful social affair. The banquet hall was decorated with large sprays of Lady Banksia roses and the tables strewn with asparagus plumes. The menu was of the kind for which the association is famous and it was served by young lady volunteers from the association. Plates were laid for 125, which included many of the most prominent laymen and ministers in the city.

Mr. Burdette, in taking his place as toastmaster, said: "It's a real pleasure to be mentioned as a toastmaster at a banquet, because there is nothing to do but mention the names of the speakers and sit down. If a man comes as a speaker at a banquet he pays his dollar and doesn't eat anything and what he eats doesn't agree with him. The toastmaster is an irresponsible sort of a creature, who is not expected to say anything, and says nothing."

Burdette was the happy one, and kept good cheer in the saddle from start to finish. He introduced as the first speaker Rev. William Horace Day as "a man who knows when to set a hen, who was to talk on 'Our Federation.'

Mr. Day as head of the Committee of Twenty-five is credited with having initiated into the mind of his coworkers that they were the time to act on the question of organizing a church federation by squelching that committee and continuing it as a permanent organization as the executive body, all church members being members of the federation by virtue of their mere signatures on the committee. That course was adopted and has given much satisfaction to all persons interested. The laymen's committee was organized last night by the action of eleven additional members, and the election of O. T. Johnson as its chairman and Walter H. Fisher as its secretary. The Ministerial Union will form the other half. Mr. Day in his talk said:

"The Legislature of California has not seen fit to give us a law that would have enabled us to wipe out Anti-Polygamy laws are now in existence to the legislators of the State: 'You must give us what we want!'"

He declared that it was now in the power of this federation to accomplish the extinction of the Anti-Polygamy laws. It is predicted that it would be done. He paid a splendid tribute to the work of W. H. Frost and other members of his committee.

W. H. McWay was introduced as the layman who would probably receive the credit to the colonel and the parents instead of taking any of it to himself. Mr. McWay talked straight at the laymen, and said that the churches faced many failures because the laymen balked at plans laid by their pastor.

"It is possible," he said, "to so unite the laymen under the title: 'Work Ahead.' Mr. Burdette made the rule that each man was to talk on as long as he could stand on one foot. Prof. C. C. Boynton, J. J. Brady and Dr. E. S. Chapman worked under the rule, and the others followed. Mr. Barnes, President Barnes of Chicago, the Christian Education Society of America, whom he invited to stand on both feet and talk on what he liked.

Mr. Barnes spoke briefly on the importance of Christian education, but began by saying: "I am loth to take advantage of the toastmaster's kindly expression, and keep you even one foot longer."

There were two vocal numbers by Harry Barnhart, Stephen Robinson, Mrs. Besse, Mrs. Harrison and a quartet of young ladies.

The Finance Committee of the evangelistic campaign submitted a report showing \$15,000 collected from all sources and a balance of \$15,000 in the treasury. No one person contributed

Rugs Liberally Reduced

Doesn't seem to be any limit to the rug business—it's greater this season than ever before, and we've been a factor in the Rug market for some time past.

Seems like everybody is reaching the conclusion that rugs make the most sensible, convenient, cleanly and artistic floor coverings.

And when it comes to the economic side of the question, fitted carpets aren't to be considered at all—especially with people who rent and never find two houses with room the same size.

Recent purchases of great quantities at liberal price concessions, and our willingness to let them go almost devoid of profit during this expansion, accounts for these offerings:

Room-Size Rugs—best quality Bigelow or Hartland Wilton rugs in really beautiful designs and colorings; 8 ft. 3 inches by 10 ft. 6 inches, \$27.50; herefore \$33 and \$35.

9x12 ft. size in handsome medallion and all-over designs—and the entire stock to choose from—at \$29.75; regularly \$37.50.

PLANT TREES TODAY.

Arbor Day to be Appropriated at Schools and in Elysian Park.

Regardless of weather conditions, Arbor Day will be observed in Los Angeles today. The Mayor has designated hotel for city employees, and in the public schools books will be laid aside and the children will be taught something of the real sentiment of the occasion. With appropriate exercises they will plant hundreds of small trees and shrubs in the grounds around the various school buildings. More than a thousand trees were distributed to the schools yesterday, and there was also a ample supply of bushes, vines and other foliage, which will make an ample supply.

The public exercises will be held in Elysian Park. At 1:30 o'clock this afternoon a column will be formed at Temple Auditorium and Mount Lookout, where addresses will be delivered by Dr. W. A. Lamb, J. A. Hatchett and Hon. Will A. Harris. A band will be in attendance and there will be a musical program composed of students from the High School. It is expected that all the leading organizations in the city will be represented at these exercises, which will be followed by tree planting.

A dispatch from Duluth, Minn., says navigation at the head of the Great Lakes opened yesterday.

(NEWS REPORTS FROM TIMES CORRESPONDENTS)

TRIAL SO RACY IT MAY BE.

SPICY TESTIMONY EXPECTED OVER DEWEY WILL.

San Bernardino Lawuit Promises Sensation—Old Soak Takes Possession of Express Train and Holds the Wheeled Fortress for an Hour, Giving Police a Terrible Struggle.

SAN BERNARDINO. March 30.—The Dewey will contest has been set down for trial Tuesday, April 4, before Judge F. E. Oster. It promises to be one of the most sensational suits of the kind on record. The plaintiff is Chester Dewey of Upland, whose wife, Mrs. May John Dewey, inherited in the neighborhood of \$60,000 from an old man named Robinson, whose past seems shrouded in considerable mystery.

The exception to having Robinson at his home, up and separated from his wife, taking up his residence in the adjoining house, and executing a lease to his wife for the house where she resided. She commenced action for divorce, and on the last day allowed by law in which Dewey could file an answer, his wife died.

The day of the funeral her will was read for the first time by Dr. H. H. Hansen, her sister, the wife of a San Francisco dentist. She is nominated in the will as executrix of the estate, and left a large share of the property, which her other sisters and a brother all reside at San Francisco and Oakland, come in for the remainder, while Dewey is cut off with a dollar.

Dewey promises to show that his sister-in-law and a neighbor influenced his wife to do him harm, and that they poisoned her mind with false stories about him. Much of the contents of the deceased woman's divorce complaint will be introduced in the suit, and it is expected that the property estranged from Dewey. The hearing will result in throwing light upon the personal identity of the old man Robinson, and it is said that all the circumstances of the separation between Dewey and his wife, formerly Miss John, will be brought out, and that, in fact, the past lives of both will be probed thoroughly.

OLD SOAK HOLDS TRAIN.

John Selbert got filled with whisky yesterday, and took possession of a Southern Pacific train. He rushed for the engine and made himself the pilot. The train stopped, and passengers' negotiations were commenced between the drunk and the trainmen.

Selbert finally compromised by consenting to take up a position in the baggage car. When he had entered the train, the train was run back to the motor depot here, and a rush call was sent in for the police.

Policemen and telegraphers, in battle with the drunken man, he held his position in the car for nearly an hour.

The officers at last overpowered him, and with the aid of Police Warden, who had been with him during this operation he almost got Seccombe's nose between his teeth, and then by a sudden move got hold of the officer's revolver, but his grip was broken before he could take advantage of his maneuver. This morning the police judge let him off with a fine of \$5.

PRIME GETS DECREE.

Thomas Prime of San Francisco has secured an annulment of his marriage to Frances Wood, which was performed in Nottingham, England, several years ago. It was obtained at the grand hotel at the expense of some mind when he married her, and that that fact was kept from him until after the ceremony. He recited that she had a religious man, and composed a hymn for him. After the service he returned home and found a large oil spot on the floor, and learned that while he was absent these fanatics had held religious services in his house, and the oil was used as fuel.

The funeral of Elmer T. Benner, a well known resident of Colton who died in San Bernardino Tuesday evening was held this afternoon at the Christian Church.

THEIR ESTIMATE TOO HIGH.

A. F. Torn and Hugh L. Boxxall filed a lengthy suit with the city trustees in which they placed the cost of the new proposed electrical plant at \$40,000. This is said to be about double what the city expects to spend in improving the plant. The report proved to be entirely unsatisfactory and further data will be procured by the board before an election is called to vote bonds.

ANAHEIM NEWS NOTES.

Harmon Landreth of Fullerton and Miss Edna F. Young of San Diego were married at the home of the bride tonight. They will reside in Fullerton.

Mr. Ernst of Los Angeles yesterday purchased the furniture in the St. Louis Hotel, Hotel de la Paix, for \$1,000 for three years and will open the building in a few days. The hotel cost over \$30,000.

REPAIRING THE DISINTEGRATING COURTHOUSE WORK.

Staff Shields and Cornices Which Heavy Rains Caused to Drop Off Are Being Replaced With Galvanized Iron—Visitors of Realty Board Excursion Handsomely Entertained.

RIVERSIDE. March 30.—Contractor Engstrom is to replace the first disinintegrating staff work on the Courthouse. E. L. Quinn, who has the contract for replacing the staff work with galvanized iron, reports that the ornamental work is more than half completed and that in a couple of weeks he will be here with a crew of men to put it in place. This will replace all the staff shields and cornices which the heavy winter rains have caused to drop off. This work is done at the contractor's expense.

FIRST REALTY EXCURSION.

The first excursion arranged by the Realty Board of the Chamber of Commerce from Los Angeles to Riverside was held yesterday. The party started at 10 A.M. via the Southern Pacific to the Salt Lake. There were seventy-three in the party. The visitors were given a tallyho drive about the city before noon and were taken for a trolley run to Sherman Institute. Like the excursion will be run again next week on the three railroads in rotation.

RIVERSIDE NEWS JOTS.

Articles of incorporation have been filed by the Riverside Granite Company, the capital stock of which is \$60,000 with \$4000 subscribed. Directors: L. B. G. McMilliard, C. E. Bly, W. G. Bradshaw and George Parsons.

The report of Sup't. Parkinson shows that the Matilija spring property, caused by the late floods, and will be ready to open for the summer season. His losses run up to some \$10,000.

SANTA ANA.

ROUBLE FOR BOOZE SELLERS.

SANTA ANA, March 30.—C. W. Hayes, of the Saddleroom, who was arrested last night charged with illegally selling liquor, was arraigned today and will answer the charge on Saturday. Herman Daasque, of the Santa Ana Cafe, similarly accused, will enter his plea the same day. Warrants were out for Dan Moes of the Klondike Restaurant and for R. P. LeBlanc, owner of the Palace Cafe.

Raids were made on both places, but both proprietors succeeded in evading arrest. It was stated that Moes had gone to San Bernardino for an indefinite stay. Le Blanc's whereabouts are unknown.

TWO MARRIAGES.

At the home of E. F. Waite on Orchard street last night the marriage of William B. Mason and Miss Lillian C. Young took place. Rev. L. Lane of the First Christian Church officiated. Both bride and groom are members of the church.

William H. Shemanske and Nettie Lee of Los Angeles were united in marriage yesterday by Rev. J. H. Garrett of the First Baptist Church, at the parsonage.

DEATHS OF A DAY.

J. A. Wall, aged 40 years, died today at the home of his brother, Dr. B. Wall of Tustin. The arrangements for the funeral have not been made.

The body of E. A. Rathbun, a former resident of this city, who died Tuesday at Redondo, will be buried tomorrow morning at 10 o'clock from Mills & Winbiger's parsons on East Fourth street. Decedent was aged 63 years.

Funeral services were held this morning over the body of Mrs. J. McCusker, whose death at Ocean Park occurred yesterday. Mrs. McCusker was a resident of Westminster and one of the best-known persons of that place. She was 81 years of age and leaves numerous relatives.

ANAHEIM.

WILL OPEN NEW BANK.

ANAHEIM, March 30.—This city has another bank and the incorporations papers will be prepared this week.

The stock will be taken by Pasadena and local capitalists. The capital stock will be fixed at \$50,000. George B. Shaffer, who was assistant cashier of the First National Bank of Los Angeles for many years, is mentioned for

Hotel del Coronado pleases everybody.

COLTON.

LOVERS MAROONED IN AUTO.

COLTON, March 30.—Stuck in an automobile in the middle of a stream with no way of escape, but to enter the rushing torrent and swim for shore, one of Colton's young men and his lady love spent most of one afternoon this week instead of touring the country as they had intended.

It was another tale of a youth of undaunted courage who knew no such cashier, as also is C. E. Holcomb, for

mercy cashier of the First National Bank of this city.

DIED UNATTENDED.

Rudolph Bentz was found dead in his room yesterday. He has been ill the past three years from the effects of typhoid fever. It is believed he had been dead several hours when found. His age was 28 and he was very popular here. The funeral was held this afternoon.

THEIR ESTIMATE TOO HIGH.

A. F. Torn and Hugh L. Boxxal filed a lengthy suit with the city trustees in which they placed the cost of the new proposed electrical plant at \$40,000. This is said to be about double what the city expects to spend in improving the plant. The report proved to be entirely unsatisfactory and further data will be procured by the board before an election is called to vote bonds.

ANAHEIM NEWS NOTES.

Harmon Landreth of Fullerton and Miss Edna F. Young of San Diego were married at the home of the bride tonight. They will reside in Fullerton.

Mr. Ernst of Los Angeles yesterday purchased the furniture in the St. Louis Hotel, Hotel de la Paix, for \$1,000 for three years and will open the building in a few days. The hotel cost over \$30,000.

VENTURA.

NOTES OF THE COUNTY.

VENTURA, March 30.—The engagement has been announced of Miss Ethel Casper, teacher of the Mount school, to Harry Preston Hill of San Diego. Miss Casper is busy cleaning up the wreck of the Matilija spring property, caused by the late floods, and will be ready to open for the summer season. Her losses run up to some \$10,000.

FORTY YEARS PRACTICE.

The question whether the Santa Barbara Consolidated Railway Company exists or not was fought out in court yesterday, when arguments in the damage suit against this company filed by Victoria Rock Lucy, Luisa Anna Vassella and Frank Abello, for injuries received last year in a street car accident, were considered by Judge Taggart. Shortly after the accident the company changed its name and incorporation, for the purpose it was alleged, of escaping damage suits.

There is no record of the original Norwegian nomenclature.

SANTA BARBARA.

FORESTY STATION LOCATED.

SANTA BARBARA, March 30.—The government forestry station for this vicinity has been located. It is a section on the Pat Klinevan ranch near San Marcos Pass. The place has been selected by George W. Peavy, special representative of the Bureau of Forestry of the United States Department of Agriculture, who has been in touch with government forestry experts for the purpose of establishing a nursery near the Santa Ynez River for the propagation of seedlings.

The ground is being cleared preparatory to the planting of seedlings and the laying out of outdoor gardens. It is at an altitude of 2000 feet and is on the edge of San Jose creek.

CONTRACTED DISEASES.

Become chronic through neglect and improper treatment, in consequence the blood becomes tainted or poisoned, structures ulcerate and deep-seated inflammation of the urinary tract is a direct result of painful cystic remedies. I am confident I cure the ailments more quickly and thoroughly than any one. A permanent cure is the only cure. I treat for and accomplish this by direct treatment.

NOT BY MAIL. This is a matter of guesswork. No one is able to give satisfactory results by such unreliable means. Thousands have tried it and failed. My method of treatment is reliable and gets at the EXACT CAUSE.

**FRIDAY'S SURPRISES****ANOTHER GREAT RAZOR SALE TODAY**
\$3 Ready-to-use Hollow Ground Razors at - - 59c

The Razor sale held two weeks ago consisted only of a portion of a big purchase of sample Razors made in New York. That particular lot was shipped by express, the balance were shipped by freight, but owing to the late rains and the numerous washouts, all freight shipments were delayed, and in some cases were transferred, so as to become lost in transit. This lot of six hundred Razors was held up en route, and were received only in the past week, and will be used as a big merchandise feature for Friday. These Razors are actual values up to \$3.00—none of them can be purchased anywhere under \$1.50; they are all Hollow Ground, hand finished, and will be sold subject to our guarantee of money refunded if not satisfactory after a trial. We will carefully fill all mail orders, but no phone orders. The Razors are in good condition for immediate use, and those that are not sold Friday will be on sale Saturday, but you should purchase Friday, as they may be sold out in the one day, for they are all priced at, choice 59c.
